DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 10 August 2009, with respect to the rejection(s) of claim(s) 1-68 under 35 U.S.C. 102(b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of the following.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1, 3-7, 9-11, 13-36, 38-42, 44-50, 52-68 rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Gueret (US 2002/0023658 A1).

Gueret discloses, inter alia, "According to another optional aspect, the plurality of bristles within a given sheet may be substantially parallel to each other. Alternatively, certain bristles of the sheet may be in a first orientation within the sheet, while other bristles of the same sheet may have a different orientation" (see paragraph [0035]). This, taken in context with the remaining disclosure of the ('658) document discloses, or at least suggests, the present invention as claimed.

Allowable Subject Matter

4. Claims 2, 8, 12, 37, 43, and 51 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The remaining prior art made of record herein and not relied upon at this time is considered pertinent to applicant's disclosure.
